INFORMATION

25 February 1953

MEMORANDUM TO: Deputy Director/Intelligence  
FROM: Assistant Director, Current Intelligence  
SUBJECT: Comment on FBI Report [REDACTED]

25X9

1. This report appears to be at least the third in a series of alarming and disturbing but not very helpful reports, believed to emanate from the same source. OGI has commented adversely on the two preceding reports. [REDACTED]

25X1

25X1 [REDACTED] but that would not make it necessarily reliable or true. Although there is inadequate information available as a check against the veracity of the report in all of its details, each paragraph has been analyzed and comment has been made where applicable. In general, this report contains nothing that a shrewd observer could not construct from available public information.

2. The FBI representative presented this report at the IAC Watch Committee meeting on Wednesday, 18 February. It was discussed but no agency representative considered it of sufficient merit to warrant its inclusion in the Watch Committee Report.
